

# GREEN GEN TOWY TEIFI

## Connecting renewable energy to homes and businesses

Consultation 5 March – 16 April 2025

### FEEDBACK FORM

Green GEN Cymru is consulting on updated proposals for a new 132 kV electricity connection to transport energy to the national electricity network. This is part of our mission to help deliver renewable energy across Wales to our homes, businesses, and communities.

The proposed Green GEN Towy Teifi connection will connect proposed energy developments in Ceredigion to a new National Grid substation at Llandyfaelog, Carmarthenshire.

The connection is approximately 52km in length, consisting of steel lattice pylons and two sections of undergrounding, one at Merlin's Hill and another at Llandyfaelog.

Following careful consideration of feedback on our first consultation, and further technical and environmental assessments, we have developed a draft route alignment, showing proposed locations of the infrastructure we need. For this consultation we are asking for your feedback on:

- Proposed infrastructure included as part of our draft route alignment, including pylon locations and sections of undergrounding.
- Any other information or impacts we should consider when reviewing and developing our proposals.

We have published a suite of information about our proposals to support you in providing feedback. We encourage you to read these materials before completing this form. These documents are available, along with further information and an interactive map on our website [www.greengentowyteifi.com](http://www.greengentowyteifi.com)

We are focused on delivering a project that best works for those who live, work and enjoy recreation close to our proposals. We are committed to protecting the surrounding environment.

We know that people have different views on new infrastructure, and we recognise people have concerns about pylons featuring in the landscape. Delivering the infrastructure we need to add grid capacity, address climate change, and help the country transition to electric vehicles and heating requires a careful balance.

Feedback is playing a key role in how we develop the project. Local knowledge can help us understand any potential effects and benefits that we may not have considered in our work to date and will inform our work going forward. Please provide as much detail as you can when giving feedback including, if possible, specific pylon numbers. These can be found on the interactive map on our website.

For further information or support when filling out this feedback form, please contact our team on **0800 915 2496** or email [info@greengentowyteifi.com](mailto:info@greengentowyteifi.com)

**Please provide your feedback by 23:59 on 16 April 2025.**

### About you

Title:	Name:				
Age group:	<input type="checkbox"/> Under 18	<input type="checkbox"/> 18 - 34	<input type="checkbox"/> 35 – 50	<input type="checkbox"/> 51 – 65	<input type="checkbox"/> Over 65
Address:					
Postcode:		Email address:			
Would you like to receive email updates about the project?					<input type="checkbox"/> Yes <input type="checkbox"/> No
Are you responding on behalf of an organisation?					<input type="checkbox"/> Yes <input type="checkbox"/> No
If yes, which organisation:					
Do you own or occupy land within the project boundary?					<input type="checkbox"/> Yes <input type="checkbox"/> No
If yes, have you been contacted by our lands team?					<input type="checkbox"/> Yes <input type="checkbox"/> No
If you have not been contacted by us, please provide the details of this land, including the address, if different to the above, so we can contact you.					

### Providing feedback

Feedback we have received to date from local people, landowners, and specialist organisations has been important in developing our proposals, alongside our own assessments.

Our proposals are still open to influence and we'd like your feedback so we can continue to look at ways to keep effects as low as we can. Please tell us if there are changes you think we can make to improve or reduce impacts and, importantly, why.

We're asking for comments on:

- Our draft route alignment, including proposed pylon locations and sections of undergrounding.
- Any other information or impacts we should consider when reviewing and developing our proposals.

We can only consider feedback about our proposals, not wider themes such as energy generation or government policy.

We have organised the draft route alignment into five sections. This feedback form is organised into similar sections, there is also space to provide broader feedback specific to the overall project.

The more detail you can provide, the better we can understand the potential impacts of our work. We look forward to hearing from you.

### There are several ways to provide project feedback

Online feedback form on our website:  
[www.greengentowyteifi.com](http://www.greengentowyteifi.com)

Sending an email to  
[info@greengentowyteifi.com](mailto:info@greengentowyteifi.com)

Hard copy feedback form, available at  
consultation events or on request

## ROUTE SECTIONS

We have organised our draft route alignment into five sections to provide the opportunity for more detailed feedback.

For further information on each route section, please refer to our statutory consultation brochure.

**Q1** Section 1: Lan Fawr to Lampeter. Are there any specific factors we should consider when reviewing or developing our proposals for each of the sections?

If you have feedback concerning the proposed locations of pylons in this area, then please provide the correlating pylon number (as outlined on our interactive draft route alignment map) where possible.

---

---

---

---

---

**Q2** Section 2: Lampeter to Llanllwni. Are there any specific factors we should consider when reviewing or developing our proposals for each of the sections?

If you have feedback concerning the proposed locations of pylons in this area, then please provide the correlating pylon number (as outlined on our interactive draft route alignment map) where possible.

---

---

---

---

---

**Q3** Section 3: Llanllwni to Alltwalis. Are there any specific factors we should consider when reviewing or developing our proposals for each of the sections?

If you have feedback concerning the proposed locations of pylons in this area, then please provide the correlating pylon number (as outlined on our interactive draft route alignment map) where possible.

---

---

---

---

---

**Q4** Section 4: Alltwalis to Rhydargaeau. Are there any specific factors we should consider when reviewing or developing our proposals for each of the sections?

If you have feedback concerning the proposed locations of pylons in this area, then please provide the correlating pylon number (as outlined on our interactive draft route alignment map) where possible.

---

---

---

---

---

**Q5** Section 5: Rhydargaeau to Llandyfaelog. Are there any specific factors we should consider when reviewing or developing our proposals for each of the sections?

If you have feedback concerning the proposed locations of pylons in this area, then please provide the correlating pylon number (as outlined on our interactive draft route alignment map) where possible.

## Privacy notice

**Green Generation Networks Cymru Limited** (a company within the Windward Energy Group) is committed to protecting your personal information. Whenever you provide such information, we are legally obliged to use it in line with all applicable laws concerning the protection of personal data, including the UK General Data Protection Regulation (GDPR).

### How will Green GEN Cymru use information we collect about you?

We will use your personal data collected via this consultation for our legitimate business purposes, including:

- To analyse your feedback to the consultation
- To produce a Pre-Application Consultation Report, based on our analysis of responses (individuals will not be identified in the Report)
- To write to you with updates about the results of the consultation and other developments if you have opted in to receive these updates
- To keep up to date records of our communications with individuals and organisations

### Any personal information you include in this form will be handled and used by (or made available to) the following recipients to record, analyse and report on the feedback we receive:

- Green GEN Cymru (which may include any subsidiary and parent companies).
- PEDW (which will consider our application for consent to build the Green GEN Towy Teifi project – any details published as part of this process will be anonymised)
- The Welsh Ministers
- Professional advisers, including our legal advisers and third-party companies and consultants that provide services on our behalf in connection with the Green GEN Towy Teifi Project.

### What rights do I have over my personal data?

Under the terms of the UK GDPR, you have certain rights over how your personal data is retained and used by Green GEN Cymru. For more information, see our full data privacy statement at [www.greengencymru.com/privacy-policy](http://www.greengencymru.com/privacy-policy)
