

# GREEN GEN CYMRU TOWY TEIFI

Have your say – consultation open  
5 March to 16 April 2025

**Green GEN Cymru is developing a new connection between the Lan Fawr Energy Park located east of Llanddewi Brefi, Ceredigion to a new National Grid substation at Llandyfaelog, Carmarthenshire to help build a stronger, more resilient electricity network for Wales that unlocks clean, renewable energy for our businesses, and communities.**

We have updated our proposals in response to your feedback and ongoing assessments. These updates are now ready for you to have your say. These include:

- A draft route alignment including proposed pylon locations.
- Sections of undergrounding.
- This consultation is your opportunity to provide comments and shape how the project is developed.

Find out more and provide feedback online: [www.greengentowyteifi.com](http://www.greengentowyteifi.com)
